

CRYPTO MARKET HIGHLIGHTS

THE PRICE OUTLOOK

Bitcoin has fallen below the trend support with the selling pressure it has faced after reaching all-time-high level of \$ 61,000. If Bitcoin goes below \$ 55,000, the decline could go up to \$ 46,000. However, there is no deterioration in the general upward trend.

REVENUE OF BITCOIN MINERS

Bitcoin miner incomes have hit a new all time high of \$52.3M per day. This occurred despite the block subsidy halving in May 2020.

PANCAKESWAP AND CREAMFINANCE

Defi platforms, PancakeSwap and CreamFinance asked their users not to enter the site and give their information due to the attack on their websites on the night of March 15th. Users who could not reach the platform during the night were able to access it again as of March 16.

NFT PLATFORM'S USERS

NFT market has been growing at a fast clip, with weekly users on popular NFT platforms soaring from around 20,000 at the beginning of the year to nearly 200,000 this week
